Soundintegration

# Music is my first love

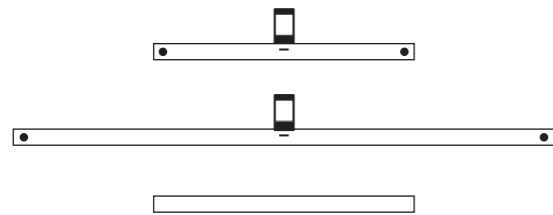

# Exquisite understatement

## Hohorizontal 51 Hohorizontal 51+ Solo 51

Enjoy music and videos from your iPod® or iPhone® in a truly elegant form. No distracting components. Just a functional wall-mounted shelf. That's all. Powerful bass and room-filling sound from the integrated sound system and a whole range of functions transform your home entertainment into a sensual experience. But that's not all. Connect the Hohorizontal 51 to your television or your computer. Hohorizontal 51 is comfortable to use with the supplied remote control. Offering convincing sound quality. At up to 2080 mm in length Hohorizontal 51+ is an ideal addition for integration into a home entertainment system. And Solo 51 rounds off your interior design aspirations as a matching shelving unit, fitting smoothly into the overall picture. A perfect solution.

best of the best 2011

## Mirror 62

Mirror, mirror on the wall, who has the best sound of them all? When you first experience Mirror 62, you can't actually tell where the music is coming from. So it's all the more surprising when you discover that there is a complete music system concealed behind the mirror. Excellent sound. Absolutely minimalist design. The core of the Mirror 62 is based on the audio technology of the Hohorizontal 51 and is optimised for flat-surface wall mounting. The result is an amazingly powerful and voluminous sound. Emanating from a concealed source in the room. Music is supplied to the Mirror 62 from iPods®, iPhones® and other MP3 players via Bluetooth. The perfect sound system for your home, even in portrait format. Whether living room, dressing room, bathroom or study. Rectangular or with rounded edges, available in black, white or silver. Exquisitely understated.

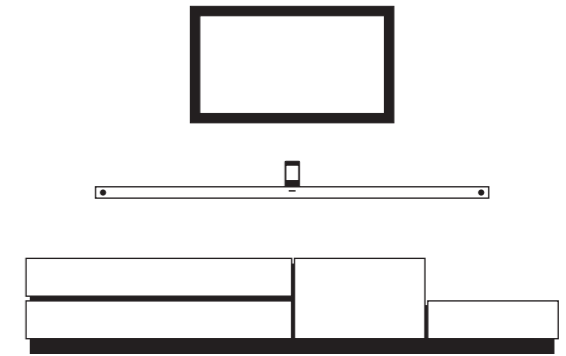

## Modul furniture system

A piece of furniture and still a perfect home for audio and video. Clear lines, fine materials and an internal system perfectly planned down to the very last detail, guaranteeing the appropriate presentation of high-quality multimedia technology in a design that is still compatible with everyday living environments. Clearly designed for the new demands of the modern world. Minimalist in appearance. Offering everything that you would expect from a piece of living-room furniture. Fine materials. Attention to detail. High-quality finishes. Modul is available in a range of cabinet colours and high-quality materials. Featuring almost silent mechanisms and functions. Cables, connectors and CDs disappear inside the cabinet modules. Modul is flexible on the inside as well and can store a wide range of items, such as CDs, DVDs and even your cocktail cabinet. And your favourite tableware. The optional subwoofer system uses the sound-optimised architecture to supplement your hi-fi or home entertainment system. An intelligent multimedia modular system. And an experience for all the senses.

## Ideal combinations

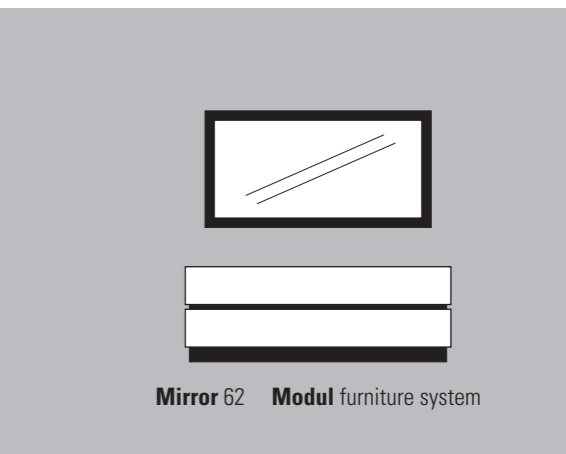

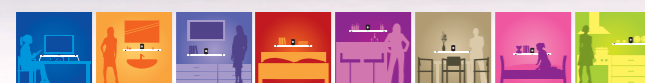

Our furniture units are highly flexible and compatible. Design and sound are matched perfectly to each other, fulfilling all of your wishes. A hi-fi centre in your living room. An all-in-one computer gaming station. Or bathroom entertainment. A multimedia hub. A playground for audiophile dreams. Our integrated solutions are at home wherever fine sound quality is called for. Use the flexibility of Modul to accommodate the future in integrated technology. A perfect match for the Hohorizontal 51 soundboard or the Mirror 62. Flexible and modular. A sensory delight with high-quality finishing. Highly listenable and technically sophisticated. Perfectly combined to a perfect solution!
